

Northern California Pole Spear Fixed

The B3121-4 Polespear is a newly released Polespear design made and designed by LEI.

This pole is a collaboration with many **Pacific Northwest Divers** and their preferred setups.

B3121-4 FEATURES:

- Front Fixed Tip (provides the diver the option at the blink of an eye to convert the tip type without tools)
- Sure Grip recessed tightening grips on pole sections. (allows the diver to snug the poles together easier.)
- Dual Loop Rubber. 2 positions for load for different pole length and Power.
- 5 Year warranty to original buyer
- Water Seal and Thread Locker Connection. It's designed to be tight so poles will not unscrew in use so **SNUG UP THE CONNECTION TIGHT!** **REMEMBER - NEVER USE TEFLON TAPE ON THREADS for Pole to Pole connection!** The tight thread tolerance will not allow for a tape sealer too
- Stow clip and side hole (when your pole is not in use, clip it on your float and keep the tip out of harm's way)
- Made from 5/8" O.D. thick walled aluminum tubing with a black anodized finish
- 3 Different Configuration Setups
- Pole Package comes with Flopper type spear tip. Other tips options available

SETUP OPTIONS:

POLE Setup for Maximum Rubber stretch

POLE Setup Short length hunting in holes

POLE Setup with 1 foot length in front of Grip. Get the tip farther away from your body for spooky fish.

Water Tight and Threadlocking Connection.

Alignment spud prevents cross threading and adds strength to the joint as it is tightly toleranced for the inside of the tubing.

Use the Stainless Stow clip when your pole is not in use, clip it on your float and keep the tip out of harm's way.

There is a lifetime 10% discount on all LEI manufactured spear tips for ALL Original Purchasers of the next generation Pole Spears B3020 and newer models.

5 Year Warranty

The 5/8" LINGHUNT B3020 and B3120 Series Pole spear has a 5 year warranty against defects in material or workmanship for original Buyer.

This doesn't cover abuse and misuse of the pole spear (Use as a Pry Bar, Driving over it with Truck, etc)

Rubbers are not included as they are a consumable and need replacement with use.
